Micheal,

I just wanted to thank you for your company's excellent services in moving us from Atlanta (and storing our things for a year) and shipping them to Sweden in 2009-2010. You answered all our questions along the way and made things easy, and most importantly everything arrived complete and in the same condition. The local companies you used in Georgia and in Sweden were very professional and easy to work with. We had a great experience with Southern Winds!

We appreciate it!
